California's State Capital

Real Estate Services:

Serving the Northern California Region including the Sacramento Metro and Yuba-Sutter Area's.

Dear Homebuyer,

If you are looking for an affordable safe place to raise a family than look no father than the northern valley. As the State Capital, Sacramento is situated two hours from Lake Tahoe & San Francisco. It is a thriving metropolis that is making a name for itself as a great place to live. Yuba City and Marysville is the most affordable region of the state. We enjoy a growing economy and community. In 2006 Yuba County was the fastest growing county in the state. You owe it to yourself to find out why so many people are making this their "home".
